The Charity of Fear

When a small band of black, young people solicited funds in Lemon Grove for an unlisted charity a few days ago, the white fear-syndrome began to emerge.

A resident who lives on one of the streets where the youngsters were going house-to-house, grudgingly contributed before checking the authenticity of the charity.

"I didn't want to give anything but I was afraid that if I didn't they would come back and damage my property," she said.

She said she had reason to believe that the charity was not a recognized one but her fear of reprisal was so great that she couldn't bring herself to deal with the situation on a rational basis.

That is one of the smaller ways in which our society is being changed. Law-abiding blacks and whites alike are adjusting normal judgments to accommodate those who would intimidate.

It makes the point of how up-tight our society has become about matters that were insignificant a few years back. Such reactions are symptomatic of the great disease that has swept our country. One symptom is the fear of some young, and probably innocent, persons doing their thing for a charity they must have believed in.

J. Edgar Hoover, who always says it so well, in a communication to all law enforcement officials earlier this month, spoke to a similar point.

"There is something distressing about free people having to restrict or alter their daily pursuits and activities because of brazen criminals," he said. It should be noted that the youngsters who were collecting for charity were not criminals but the reaction of the local resident must have stemmed from the situation about which Hoover spoke.

"Is it right that bus passengers in many metropolitan areas must always have the exact fare because busdrivers cannot carry money to make change without being robbed?" he asked. "Is it right that motorists in some cities must buy gasoline in amounts for which they have exact money, or use credit cards, to keep station attendants from being held up by thugs? Is it right that downtown merchants in some areas should lose their customers, and perhaps their businesses, because citizens are afraid to venture into crime-infested streets?"

"... More and more of our Nation's total energy and effort is needed to protect people against crime. For instance, more theft-prevention devices are being installed in new automobiles. More homes are being equipped with bigger and more complex door locks. Banks are taking steps to reduce the amount of cash exposed to bank robbers. In some cities, police patrol school corridors and grounds to keep troublemakers from disrupting classes and assaulting students. The list goes on and on. We are attempting, in effect, to create a protective barrier between society and the criminal.

"... If we are to find relief from crime, we have to shore up our legal walls to prevent lawbreakers from slipping back and forth through loopholes to prey on the public and then hide behind legal sanctions to avoid just and adequate punishment. If we are to contain the spiraling crime rate and bring a higher degree of security back to the law-abiding citizens, then we must make justice swift and certain. In spite of what some courts and legal theorists may proclaim, justice is all inclusive; it means justice for the victims as well as for the accused.

"Soon we will have to stop granting concessions to marauding criminals and stop reshaping our lives to conditions thrust upon us by excessive crime.

"I am fully convinced that one of the most effective moves we could make to combat crime in the 1970's would be to speed up and improve our judicial processes so that the time element between a criminal violation and its disposition is sharply reduced. The old truism not withstanding, it would appear that not all criminals and their attorneys today believe that 'justice delayed' is 'justice denied,'" he said.

"Let us stop reacting aimlessly to the pressing demands of the lawless. Rather, let us start applying the legal remedies and safeguards of the law which is meant to penalize those who break it, not those who abide by it."

And, perhaps a housewife may again be able to decide for herself whether she wants to make a contribution to a charity because she wants to; not because she is afraid not to.

Ilse Hanning Named New Principal At Golden Ave

The Lemon Grove School District Board of Trustees met Monday night, and after an hour of executive session, announced that Ilse Hanning will become the new principal of Golden Ave. School.

In other action, the trustees voted to approve the continuation of an offer to parents for the purchase of a \$2.50 student accident insurance policy. The policy provides low-cost protection for the parent in the event that his child is injured on the way to and from school, on the school grounds, or on school sponsored activities.

The board also voted to approve authorization to the district to make a report and letter requesting release of funds from the Federal Government which were not received as anticipated in the 1969-70 budget.

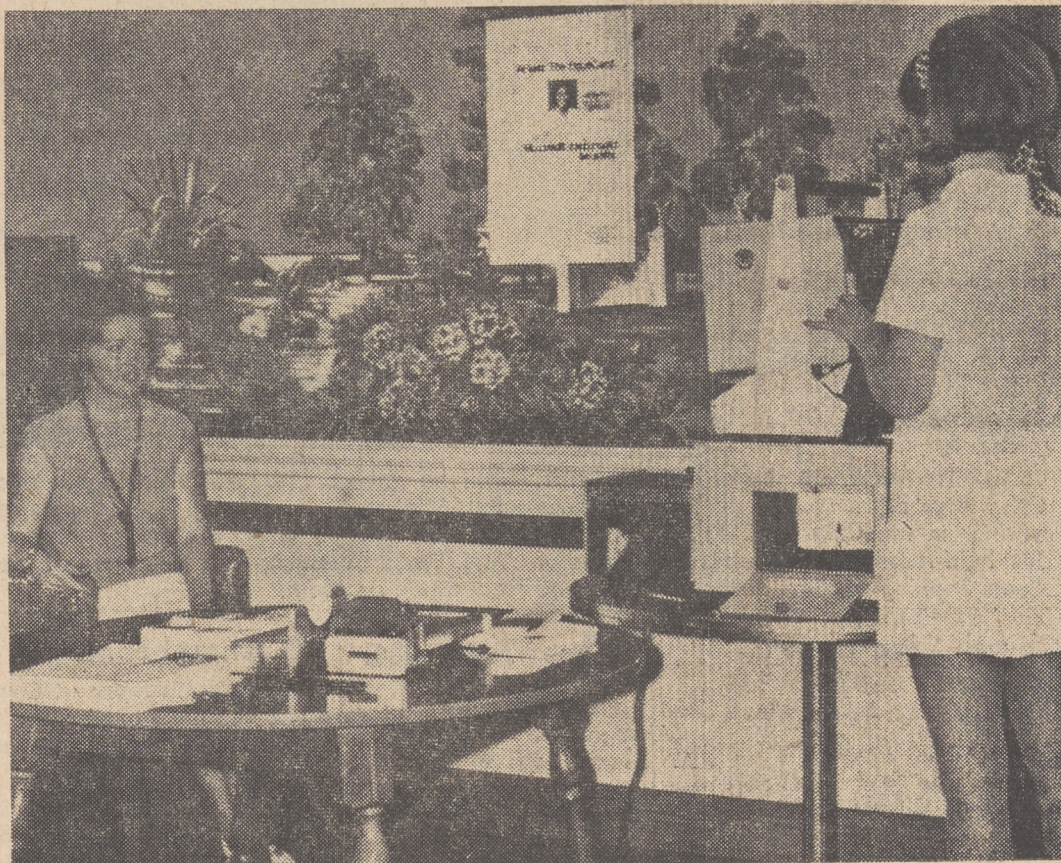

The board also approved amending personal leave policies for district personnel, liberalizing the emergency leave

policy. In the revisions, teachers will be allowed to include personal business as a reason for emergency leave. The total time allowed each year for emergency leave remains at six days.

In line with amending district policies, the board approved new policies involving group life insurance benefits, mileage from school for students riding busses, and other items required to bring policies in line with new state legislation.

In other action, the board approved application for allowances from the state under the Miller-Unruh Reading Project to cover the state's allocation toward salaries of six teachers under the project.

The board also listened to reports on new money which was not considered prior to the approval of the publication budget, and reports from the negotiating council regarding health insurance programs.

Lemon Grove Man Is Victim Of Hit-and-Run On Broadway

Roger Verbiest, a native of Belgium who operates the Verbiest Travel Bureau at 7905 Broadway in Lemon Grove, is going to be naturalized Friday but they "Americanized" him Tuesday on a crosswalk in front of his place of business. He was struck by a hit-and-run motorist.

Verbiest suffered bruises and a severely cut hand but was released from Grossmont Hospital after a few hours. He is recovering at his home at 3645 Kenwood dr., in Spring Valley.

Verbiest said Wednesday that he would attend his naturalization ceremonies before Judge Jacob Weinberger in San Diego Friday "if I have to go in an ambulance."

According to eyewitnesses' reports, Verbiest was in the cross walk when he was hit. The driver of the vehicle stopped momentarily, but then drove away.

California Highway Patrolman R. Brown questioned witnesses as to the identity of the driver of the car. One witness, Joel Ashbrook, said, "Winchell's knows him. Everybody knows him."

Patrolman Brown said that

Three Nailed For Dope In Spring Valley

Three youths, stopped for a curfew check early last Wednesday morning, were arrested for possession of marijuana when sheriff's deputies discovered the contraband while checking for vehicle registration.

The suspects, Emanuel J. Stark, Karl J. Meindl, and David L. Bourdeau, were driving in a borrowed vehicle on Banlett dr., in Spring Valley when the arrests were made at 3:50 a.m.

Free Swimming Lessons Slated At Gunther Pool

Free Red Cross swimming lessons will be offered at Gunther Pool, August 10 through September 4. Registration will be Saturday, August 8, from 8:30 - 10:30 a.m.

Sessions will be held for beginner, intermediate and swimmer classes. The first session begins August 10 and runs through August 24. The second runs August 24 through September 4.

Lessons will be given daily at four class times and available on a first-come, first-serve basis. Classes will be restricted to 10-15 students.

Junior lifesaving classes will also be offered, 9:30 - 11:30 a.m., Tuesday and Thursdays and will run throughout August.

According to Donna Pepin, program director, students should bring their suits on registration day since they will be screened at this time and placed in the proper class level. Long hair must be braided, tied, or the swimmer must use a bathing cap.

Thirty-one instructors and 14 teenagers, who will act as assistants and life guards, have all volunteered their time.

Last year more than 700 swimmers participated in this program.

School Vandalized

\$200 in damages were reported from Spring Valley Elementary School, after a window was broken in the teachers' lounge, and a window frame was pulled away from the wall.

The lounge also showed signs of malicious mischief on the interior, but there was nothing apparently missing.

The mischief was discovered July 16.

The set, which was taken July 16, was worth an estimated \$300.

James V. Dorman Heads Community Plan Committee

James V. Dorman, a Lemon Grove attorney, was elected temporary chairman of the Lemon Grove Community Planning Committee last week at its first executive committee meeting. Dorman is also president of the Old Time Days Associations.

Approximately 75 people attended the meeting at the L.G. Junior High School.

Robert Kelsay, chief, Community Planning Division of the County, opened the 3 o'clock meeting with an explanation of policies and procedures. He said that all offices were temporary until the committee gets supervisory approval.

He also explained the responsibility of the people and the responsibility of the staff. Nominations came from the floor and the secret ballot was used to elect the officers.

In addition to Dorman, Ben Ela, an engineer, of 1610 Elroy dr. and Al Woods, manager of the L.G. branch of the Bank of America, were elected vice presidents and Evelyn Mae S. Taylor of 1580 Glencoe dr. was elected secretary.

During the temporary period, officers will serve as committee chairmen.

Dorman is by-laws committee chairman and his committee meets tonight at 5 p.m. at L.G. Junior High school.

Woods' boundary committee meets Monday at 7:30 p.m. at

the First Baptist church, 2910 Main st.

Ela's work program committee decided it was ready and met Monday at the L. G. Congregational church. The committee studied procedures used in forming community planning committees at Santee, Poway, Fallbrook and Rainbow. The work committee's next meeting will be at the same place Monday at 7:30.

All meetings are open to the public, Kelsay emphasized. This includes committee meetings.

The next regular meeting will be Thursday, August 6 at 3 p.m. at the L.G. Junior High school. All who sign up for regular meetings or committee meetings are advised in advance by letter. There are no closed meetings at any time, Kelsay said.

CdO Rezone Request Puts Down Opposition —For Time Being

SAN DIEGO (CNA) — Things are stirring east of Casa de Oro and a number of people living in the area are stirred up over it.

The Rancho San Diego Development Company plans the development of many acres in the Sweetwater Springs area.

A delegation of at least 20 people walked out of the meeting when the company withdrew its rezoning application and special use permit for a Planned Residential Development of 441 dwelling units.

They were ready to present a petition of opposition containing 315 names, but will hold it until the company presents new plans for the area.

Under the consideration Friday was only a minor portion of the whole project. The 129 acres are on both sides of an easterly extension of Austin dr., about 1,350 feet west of the intersection with Sweetwater Springs blvd.

The land is part of the land that realtors Bob Rundell and Arnold Dahl got rezoned, apparently inappropriately, last year.

Spring Valley Woman Wins At Art Show

A Spring Valley woman, Mrs. Pauline Doblado, came away from the Chula Vista Art Festival with a trophy and cash awards for her oil painting called "Gemini", which was selected as best of the show and also won first place for oils.

Mrs. Doblado, who is an art teacher, and has a studio in El Cajon, has won several awards in competition throughout the county, and is a member of the San Diego Art Institute. She specializes in portraits.

The annual contest, which is in its fourth year, is sponsored by the Chula Vista Shopping Center Merchants Association, and the Chula Vista Art Guild.

Entries in the competition will continue to be on display through Saturday afternoon at 3 p.m.

Mount Miguel Hit By Vandals

The office at Mount Miguel High School suffered \$3,000 in damages when vandals broke in and splashed ink on walls and equipment at the Spring Valley school.

Spokesman for the school said that the incident occurred sometime over the weekend of July 11-12.

In the damage, five typewriters were ruined, along with numerous file cabinets, walls and doors, and an adding machine was stolen. The vandals also used spray paint to aid in the destruction, and also pried open several vending machines.

The total plan could be a real test for county planners, elected or otherwise. The Board of Supervisors recently adopted a policy that would require large developers to go through a review process.

This would include land use projections, effect on local districts, schools, water, fire protection, and upon traffic circulation.

However, county planners say the company does not want to be locked into any pattern, but wants the county to approve a dwelling unit density of about one dwelling unit for each 3,000 square feet of land.

This corresponds to R-2 zoning and would be about 14 units per acre. As there are some 3,000 acres involved, that is a lot of people room.

It could be that the company is not in a position to spend the amount of money necessary for total planning, or it could be that it plans to sell portions of the acreage to different builders who might have their own ideas on what to build.

There was no indication when the company would be back with new plans, but Zoning Chief John Cassidy said the company is actively pursuing the project.

No testimony was taken at Friday's session. A withdrawal of an application is binding upon the county.

Tax Free Organizations Must Complete Report

Several thousand organizations which presently enjoy California income tax exempt status are in danger of losing this privilege unless they take prompt action to file the proper reports, said Martin Huff, Executive Officer of the Franchise Tax Board.

As a result of legislation enacted in 1969, all organizations which have been granted exemption from the California franchise or corporation income tax are required to file an information report with the department this year. Failure to file a report could result in penalty assessments and the loss of the tax exempt status, Huff said.

The reporting requirements apply to churches, charitable organizations, business leagues, social and recreation organizations and other non-profit groups granted tax exemption under Section 23701 of the Revenue and Taxation Code.

In order to assist exempt organizations in satisfying the requirements of the 1969 legislation the Franchise Tax Board in March of this year mailed a questionnaire form to some 70,000 exempt organizations. Less than 50% of the organizations have responded to the questionnaire to date. Response to the questionnaire is mandatory in order to enable the department to mail the appropriate report forms to the organization.

Learn Spanish the Easy Way

Hardison's Telespanish

By JAMES HARDISON

There are four Spanish words, "aca, alla, alli, and aqui," that are slightly confusing to me. Would you please explain the different meanings of these words in English and give a sample phrase to demonstrate how they are correctly used.

"Aca" mean "over here." A good example of how it is used in a phrase may be seen in "Venga usted aca." (Come over here.)

"Alla" mean "over there." An example of "alla" is seen in the expression "el esta alla" (he is over there) or "voy por alla" (I am going over there). In each of these examples "alla" conveys the meaning of "over there" in broad terms signifying "a great distance away."

"Aqui" is a more common word which means "here." One might use this word in the phrases "Estoy aqui" (I am here) or in the phrase "El no esta aqui" (He is not here).

"Alli" pronounced "ah-YEE" is a more specific word which means "there." An effective use of "alli" may be seen in the phrase "Alli esta el." for "There he is." or "Alli esta." for "There it is."

All four words, "aca, alla, aqui, and alli," have on thing in common. They are all stressed on the last syllable. Thus their respective pronunciation is "ah-KAH, a-YAH, ah-KEE and ah-YEE." The practice phrases listed below reflect the use of these words.

You may learn to say them with the aid of the recorded voice that will say them for you when you dial 276-2762 on your telephone.

IMPORTANT PHRASES:

Say "Quien esta aqui?" (Kee-EHN eh-STAH ah-KEE)

for "Who is here?"

Say "El esta alli." (ehl eh-STAH ah-PEE)

for "He is there."

USEFUL PHRASES:

Say "Adonde va usted?" (ah-DOHN-deh vah oo-STEHD)

for "Where are you going?"

Say "Yo voy por alla."

CONRAD LEMON GROVE MORTUARY

This Sunday

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is for more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

Cunningham Tells Kiwanis About Freeway Situation

At a recent meeting of the Spring Valley Kiwanis Club, Alex Cunningham, Information Officer for the California Division of Highways for San Diego County, Imperial County and the southeastern portion of Riverside County, brought the members up to date on the highway situation.

A question was asked as to when the freeway paralleling Sweetwater Road would be started and, Cunningham said it would start sometime after 1975.

After October, there should be some definite information as to when work will be done along Spring Street in Spring Valley to connect it with Highway 94. This is a badly needed project, but it has not yet been financed.

The Division of Highways does its planning twenty years ahead of time so that it can anticipate where the areas of development will be in the future and make its plans accordingly.

Sometimes the division does what Cunningham terms "protective buying" so that the land can be reserved specifically for freeways. This eliminates the vast expense of tearing down a shopping center, trailer park or housing tract that was built right in the path of the freeway.

Said Cunningham, "One of our purposes is to try and in-

tegrate the Highway with the area." This is done by landscaping along freeways. In fact, the division gives an award every year for the most outstanding landscaping. Last year it was won by Highway 805.

Three Area Drivers Finish In Top Five At Cajon Speedway

It was a good week for Lemon Grove-Spring Valley area drivers at Cajon Speedway last week, as three of the top five drivers in the super stock main event were from this area.

Although the top two positions were grabbed by Russ Bullen, of Bonita, and Bill Butts, of El Cajon, it was Ed Hale, Lemon Grove, Jim Hitt, Lemon Grove, and Jim Osborne, Brookside, taking 4-5-6 in the elongated 40-lapper.

Osborne, who started second in the 20-car field, grabbed the lead on the first lap and slowly built a margin of seven car-lengths before a yellow flag tightened the pack on the thirtieth lap.

Russ Bullen, who had started out tenth in the field, was running second when the yellow was dropped, and took advantage of his car's superior speed and moved into the lead on the 31st lap.

Meanwhile, Bill Butts had moved up from the middle of the pack, and made it around the fading Osborne, as did

Hale and Hitt.

The yellow was dropped again before the race could get going good again, and Hale took his last shot at Butts. As the checkered flag came down, Bullen had the win by three lengths, and Butts nailed down second by a length.

The win for Bullen helped him take a firm foothold on the top rung of the points ladder, while Hale remained in second, and Hitt, making his move, gained three notches in the standings to take over sixth.

Pat McIntyre, Spring Valley's "Mr. Consistent", picked up points in the main event to edge closer to third place in the standings, while Jamul's Cactus Henyan turned in the fastest trip around the oval in qualifying.

Henyan, who couldn't get his car to go fast enough earlier in the season, appears ready to crack the winner's circle, if he can stay out of the way of the crash walls.

Looking to modified action, Roger Tilton and Ed Hale are

still struggling to get ahead in point standings. Hale, who has had trouble keeping his car in main events, rides in fifth place in the standings, while Tilton, of Spring Valley stays in sixth place after bending fenders with Jim Castle in the main event last week.

In the figure eight races, Hale and Dean Erwin provided a wild show last week, as Erwin made off with the semi-main event, and Hale came back to capture the main. In the main, Hale jumped out to an early lead, only to have Erwin take the top spot on the fourth lap.

Hale got by him on the next lap, however, and held the margin over Erwin for the remainder of the race. After the race, tempers flared between Dennis Bell and Bill Teague, each claiming the other was guilty of rough driving.

More racing action is scheduled for Friday and Saturday nights, with qualifying at 6:30 p.m. and first races getting underway at 8 p.m.

EVER SMILIN' Ed Hale, of Lemon Grove, had a good week end at Cajon Speedway, taking third in the superstock main, winning a heat in modified action, and winning the figure eight main event.

Del Mar Starts Friday For 31st Year of Racing

The 31st season of Thoroughbred racing at picturesque Del Mar, "where the turf meets the surf," begins Friday featuring the 17th running of the \$15,000-added Palomar Handicap for older fillies and mares at 7 1/2 furlongs over the infield grass course.

A readily apparent high degree of pre-season enthusiasm portends that the initial meeting under the new flag of the Del Mar Thoroughbred Club will be among the most successful of recent years at the friendly seaside track.

Thomas M. Hamilton, prominent San Diego attorney, is president of the Del Mar Thoroughbred Club, a non-dividend paying organization comprised of individuals deeply involved in the sport as owners and/or breeders.

Serving without remuneration on the board of directors are William R. Hawn, John C. Mabee, Mrs. F. A. Spencer, Clement L. Hirsch, Robert H. Grant, Louis R. Rowan and Dr. James R. Buell.

More than \$200,000 was expended in an improvement program which included complete redecoration of both the clubhouse and turf club, replacement of the grandstand roof plus other projects designed to enhance the comfort of visitors to Del Mar.

The Palomar Handicap on

opening day launches an attractive slate of 20 stakes events worth \$445,000 which will be offered during the 42-day session. Total purse distribution is expected to be a record \$2 million and this will lure outstanding horses and jockeys from other sections of the country as well as the West Coast.

Bill Shoemaker, one of the athletic world's true superstars, will ride on a regular basis at Del Mar for the first time in 15 years as he attempts to surpass John Longden's all-time record of 6,032 victories. Top jockeys on the scene in addition to Shoemaker will include Alvaro Pineda, Rudy Rosales, Jerry Lambert, Bill Mahorney, Donald Pierce, Fernando Toro, Ismael Valenzuela, Wayne Harris, Howard Grant and many other accomplished journeymen.

L.G. All Stars To Lock Horns With National City

Lemon Grove will meet the National City Nationals in a Little League District playoff tournament game today at 5:30 p.m. on the Lemon Grove diamond.

The field is located at 7550 Canton dr., just below the Monterey Heights Elementary School.

Lemon Grove is host for the four-day tournament which began yesterday and concludes Saturday and which features five of the area's finest Little League squads. Other teams competing in the single elimination affair, in addition to Lemon Grove and National City, include San Diego American, Lucky Waller and Southwest.

Yesterday's first game was between Lucky Waller and Southwest. The winner of that contest will play the tourney's fifth team, San Diego American, tomorrow at 5:30. The championship game will be played Saturday at 1 p.m.

The winning team in this playoff meets the winner of

the Southeastern playoff, Friday, July 31 at Twin Hills. The winner of that game will then play Saturday, Aug. 1, at Twin Hills for the District championship.

Eliminations then continue until eight surviving teams from the United States and competing foreign countries clash in the Little League World Series at Williamsport, Pa., in August.

The Lemon Grove team is managed by Wally Kough and Ken Heffernan is the coach. Wes Williamson is the tournament director.

Lemon Grove squad members were picked from among the eight teams which participated in the Major Division of the local Little League this year.

They include Ken Sperla, Steve Phillips, Robert Doty, John Tiumalu, Stewart Hale, Neal Luscomb, David Taluban, Mike Hunter, Bob Osberg, Dean Pudsey, Greg Maxwell, Mike Smith, Ken Heffernan and Kevin Stafford.

THAT'S BASEBALL for you! It appears that the umpire is doing a jig here, while player does acrobatics and tips his hat, but actually, the runner is hustling back to third base on a pick off play, while third baseman awaits throw and umpire looks on. Action was in Spring Valley-Sky Grove pony league all star game.

Sky Grove Nails Spring Valley To Grab Pony League Tourney

Sky Grove Pony League, getting a four-hitter by pitcher Mark Gynn, mounted a three-run attack in the fourth inning Monday night to beat Spring Valley Pony League, 3-1, and claim the area 3 pony league championship.

Gynn, who went all the way for the winners, looked sharp as he kept the ball where he wanted it, striking out eight batters while walking none.

In the fourth inning, Sky Grove picked up singles by Tom Sperla, Joe Martin, and Doug Gegax, and put it all together with three miscues by Spring Valley to score the winning runs.

Spring Valley came back in the next frame to score a run with the help of a throwing error.

The win for Sky Grove was its second of the tournament over Spring Valley, as it was a rematch of the opening game of the tourney, which Sky

Grove also won. After the opener, Sky Grove went on to win the winners bracket with two straight wins, and Spring Valley pushed on to win the losers bracket. The two teams then met, and Spring Valley upset the tourney to continue into the playoff game.

Sky Grove will now play in the five-team El Cajon sectional playoff.

Cat Control Bill Passed

A bill authored by State Senator John Nejedly prohibiting the sale for less than \$5 of any female feline of breeding age, unless the cost of altering is paid for by the person taking the animal, has been passed by the State Legislature.

The bill, which passed the Senate by a 21-5 vote last week, also applies to giving such animals away.

Herbert Martin, Executive Director of the California Branch of the Humane Society of the United States, pointed out that the Society is "delighted that Senator Nejedly's bill has passed, but regret that dogs have not been included, as they make up a large share of the problem."

He went on to say, "Now that the problem has been recognized as a fact by the legislators, why not take hold of this opportunity to really take steps to solve the problem. A statewide network of low-cost spaying clinics would encourage pet owners to have their animals sterilized, without fear of having to pay the present price of \$25 to \$70, depending on where one lives in the state."

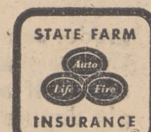

Plastic that looks exactly like wood is now being used in making furniture.

Engleman, Bryant Combine To Blank Seals For Title

Airtight pitching and fine defensive play carried the Beavers to a 4-0 victory over the Murphy Plumbing Seals in a playoff game for championship honors in the Lemon Grove Little League Intermediate Division.

The Beavers, who captured top spot last year, won first half play in the league this year and tied the Seals for second half laurels.

Beaver manager Don Luscomb relied on strong pitching all season as his team rolled to an 18-3 overall win-loss record and in the playoff he used two hurlers for the shutout triumph.

Jim Engleman pitched a superb 4 1/2 innings of one-hit ball and then, when he weakened in the fifth, Bill Bryant came on to retire five straight batters and nail down the victory for him.

The game was actually decided in the first inning when Beaver catcher John Leamos connected for a two-run homer over the center field fence. The Beavers added one more in the second on a ground out and got their final tally in the fourth on a balk.

Seal pitcher Joe Mangiapane went the route and gave up only five hits but his mates couldn't push the ball through the tough defense. Third base-

man Joe Giacinto, first baseman Jim Stewart and catcher Leamos all sparked in the field for the winners.

At bat, Leamos picked up a single in addition to his homer while Stewart banged a pair of singles and Engleman a single for the Beaver total of five hits.

SC1st To Start Olympic Style Checks Monday

Southern California First National Bank will become the first bank in the nation to initiate the sale of "Olympic Checks" to raise funds for the 1972 U. S. Olympic team, according to Fielder K. Lutes, vice president and director of marketing.

The personalized checks, which will be available at 56 offices beginning Monday, sold to customers at \$3.68 for 200, which is \$1 beyond the bank's cost. The extra \$1 is tax deductible and will go toward financing the summer Olympic team in Munich, Germany and the winter team in Sapporo, Japan.

The U. S. team is one of few which is not subsidized through its own government, said Clifford H. Buck, president of the United States Olympic Committee. Some \$10 million must be raised to train, transport, house and feed the young athletes, coaches and officials who will represent their country in the 28 sports events in 1972.

Other banks throughout the country will later join in the sale of Olympic Checks, whose special design was authorized by the Olympic Committee, Buck said.

THE ARM AND THE BAT — Denise Christensen, left, 10, will take her valuable arm into action Saturday night as the Spring Valley all stars meet Navajo in the opening round of the all-star tournament. Rhonda McClellan, 11, will lead the way with her home run hitting for Spring Valley Bobby Soxers. Denise, in her first year of Sox play, is the fastest pitcher in the league, while Rhonda boasts two grand slams on the year, and three homers in one game.

Valley Man Arrested On Three Charges

A Spring Valley man was arrested two weeks ago on charges of being drunk in a public area, possession of stolen goods, and suspicion of burglary.

The suspect Ernie W. Webb, Jr., of 9731 St. George st., Spring Valley, was parked at the corner of Sweetwater Springs Blvd. and Jamacha rd., at approximately 9:15 p.m. July 9, when he was apprehended by a sheriff's deputy.

Webb complained of his parking brake being stuck, and asked the deputy if he could help him fix it. When he was asked to get out of the car, Webb staggered considerably, and the officer noted a strong smell of alcohol on his breath.

He was arrested for the

SD High School Walkout Threatened by Coaches

A Lemon Grove resident, Birt Slater, of 7880 Mt. Vernon, told members of the Sportscasters-Sportswriters Association Tuesday that he and more than 150 San Diego City high school football coaches would not return to work this year unless funds were budgeted for extended pay.

Slater, a teacher, is also head grid coach at Kearny High school and president of the San Diego County Football Coaches Association.

SSA members meet each Tuesday at Casa di Baffi, res-

taurant for work sessions.

Slater said the S.D. Board of Education had struck "extended day's pay" from its proposed budget for the 1970-71 school year.

"Someone figured it out that the time we put in amounts to about 12c an hour," Slater said. "It costs the district a total of \$50,000 — or \$10 a student for the entire coaching program."

Slater complained that income from the athletic events often go to pay for facilities and equipment not budgeted by the board such as business machines in the education department and a \$4,000 organ for school.

He also said the discipline that boys in athletics like so well would be lost in a curtailed athletic program.

"And you turn these boys loose at 2:30 to roam the streets and you're asking for trouble. These guys have the guts and energy to do the things that other youngsters just think about doing."

He said that he recently talked to about 20 coaches who said they would not return to city schools this year unless the extra-curricular pay is restored to the budget.

The extra time pay amounts to about \$330 per coach. Coaches generally are also teachers at the schools they serve and draw teachers' pay.

Kinetic Art Series Continues At College

Grossmont College will open the second half of "The Kinetic Art" series when the first program is screened at 11 a.m. and 7 p.m. tonight in the Fine Arts Lecture Hall.

"The Kinetic Art" series, designed to bring the choice new films of the world's leading film makers directly to American audiences, has set new standards in the quality of programming. The second half of "The Kinetic Art" series is a collection of films from many countries bringing new works from leading film makers and first films from several newcomers.

These programs, using varied film-making media, offer strong colors, sharp definitions and exact realities, countered by non-logical obsessions, lyric intuitions and the humor of the unexpected.

Highlighting the first program of the series will be the legendary "Egypte, O Egypte," narrated by Jean Cocteau. Other films in the program will include "La Divina," produced by John O'Connor, University of Southern California, Department of Cinema. "La Divina" is the portrayal of an immaculate bride to the City of Angels rising from the dark inferno of Dante and Dore.

"S.W.B.," a Parisian import produced by Gerard Pires, is the story of the mod photographer who likes to quote Faulkner and wreck police cars in his search for a girl who can replace his lost model. This brilliant take-off on some recent big films has an impact all its own.

"The Joint," produced by Len Glaser, Stars and Stripes Productions Forever, New York, is a live-action film of an all-American boy who grows his own. Four other

films from London, Budapest, Prague and New York will complete the two-hour program.

The public is invited to view this showcase of international prize-winning short films that offer not only diversion for the eyes but also a challenge to the mind. The price of admission is \$1.50 with tickets available at the door.

LUNCH TIME — Lemon Grove and Spring Valley youngsters, much to the contrary of Wilma Gomez' instructions, start eating their lunches before their milk is distributed in part of the Heartland YMCA's Day Camp program. The youngsters seemed to be in a hurry to take part in archery activities at El Monte Park.

Youngsters Learning Everything From Swimming To Tent Pitching At Heartland YMCA Day Camp

The Heartland YMCA reports that the Day Camp program at the Y is turning out to be very successful, after two of the five summer sessions have been completed.

In the program, between 75 and 110 youngsters from La Mesa, Lemon Grove, Spring Valley, and El Cajon are picked up each day by charter bus from centralized locations and taken to the YMCA, where they are involved in wholesome, camp-oriented activities. Some of the activities included in the program are swimming lessons for each camper every morning, crafts classes, where kids learn to make everything from mosaics to papier mache items, archery classes, camp skills, and field trips.

In the camp skills classes, kids learn to roll and take care of sleeping bags, pitch tents, build campfires, cook, and "live in the woods," as it was put by Day Camp director Ed Costa.

Each two week session also includes two field trips, daily afternoon visits to El Monte Park, where the campers eat lunch, and engage in camp activities, fresh milk each day for lunch, a night swim, a stay overnight at the Y, a late movie, and skits for the parents of the campers.

Supervising the activities in the program is a staff of ten counselors, as well as several counselors-in-training, and volunteer counselor aids. The staff has four certified Water Safety Instructors, who handle the swimming lessons, which includes units in water safety.

Many of the young campers, between the ages of six and twelve years, attend camp on the campership program, which includes donations from organizations such as Kiwanis Clubs, proceeds from selling peanuts, private donations to the YMCA, and camperships from youth clubs.

The cost of a session is \$30, if the camper has a membership in the Y, or \$33 if the camper is not a member. The \$33 cost covers a one year membership in the YMCA.

The charge for the session includes transportation, milk for lunches, swimming lessons, classes, and a dinner and breakfast for the overnight stay at the Y.

The next session will begin August 3, and according to Ed Costa, there are still a few openings available. He also pointed out that there are several openings for the last session, which begins August 17.

At the beginning of 1970, the U.S. had 13.9 million milk cows and heifers two years old and over on farms, 2% less than a year earlier.

Grossmont Budget To Call For Thirty Cent Tax Hike

The Governing Board of the Grossmont Union High School District has approved a publication budget of 22.1 million. The budget calls for an estimated operating tax of approximately \$2.31, an increase of nearly thirty cents.

The 1969-70 budget of \$19.1 million called for a general operating tax rate of \$2.04.

At the present time the budget includes \$500,000 in reserve funds and slightly more than a million dollars which as yet, is not distributed.

"Some of this money may be used for possible salary adjustments and program improvements," said Superintendent Austin Selery.

The Board will be discussing a package calling for a six per cent salary increase, various employee fringe benefits, and program improvements, as presented by the certificated

employee Negotiating Council.

This proposal was aired at the Governing Board's regular meeting on Monday, in the Board room at the District administration building.

Saturday, August 1 at 2 p.m. has been set for the public hearing on the final budget.

Schematic plans for a ninth high school to be located at Jamacha and Hillsdale Roads were approved by the Board.

Plans for a circular-type core facility and auxiliary structures were approved as presented by ninth high school principal, George Benson, and District architect, Ron Young.

The Board is scheduled to see preliminary plans for the project later this fall with construction to begin during 1971. The new school is scheduled to open in September 1972 and will help relieve enrollment pressure at several District high schools.

Model Cities Would Be Aided By Wilson's Bill

The State Assembly approved legislation by Assemblyman Pete Wilson, R-San Diego to provide technical assistance and other help to California's cities which are developing model cities programs.

The measure, which was sent to the Senate for further approval, resulted from extensive hearings conducted by the Assembly Committee on Urban Affairs and Housing, of which Wilson is chairman.

"Our review of the model cities program," Wilson said, "included testimony from federal, state and local officials who emphasized the need for state support and assistance to the 11 cities involved in the program in California."

ALL YEAR 'ROUND, Dr. Smith Jacobs, principal at Kempton Street Elementary School, has been wearing a happy face on the lapel of his suit coat. Children, so accustomed to seeing it there, began devising their own and wearing them. It wasn't long before the students asked the principal if they could have a Happy Face contest. Dr. Jacobs, in agreement, began the proceedings with the help of the youngsters.

The winning face design went to fourth-grader Jerry Sauffeld.

This past week, La Mesa-Spring Valley district staff artist and photographer Bill Burgin duplicated Jerry's drawing on a wall at Kempton. The amazing thing about the face is the more you look at it the more you smile.

Jerry and Dr. Jacobs are hoping that everyone will wear his happy face next year and that the large illustration will serve as motivation.

Boney Slaps Mills On Budget Hold-up

EL CENTRO — Henry Boney, State Senate candidate for the 40th District, has accused his opponent, James Mills, of "poor business practice" in failing to vote for the new state budget.

Boney, chairman of the San Diego County Board of Supervisors, addressing members of the El Centro Rotary Club at the Holiday Inn, said that state government, in reality, is a big business.

"Every taxpayer in this district and every taxpayer in the state is an investor in this business," Boney said. "Mr. Mills, who has voted against the budget for two years, in effect ducked his responsibilities to these investors, the taxpayers."

"And, as their elected representative, he is their appointee to the management team of the state government. Voting against this budget was a move to leave this big business without a financial plan. Any member of private business management who acted in such a manner would be fired from his job."

"A small group of stubborn Democrats in the State Legislature kicked off another political football this year by ir-

Milestone Reached By Freeway Aid Service

A major milestone in public service was passed last week when the American Freeway Patrol assisted its 25,000th stranded vehicle.

responsibly holding up the Governor's budget. Now, they are threatening to upset his tax reform program.

"There are no winners in political football — just losers and in this case — the taxpayers are the losers. You can see what happened last summer when Mills' good friend Jess Unruh and some of their colleagues held up the Governor's budget. The struggle that followed prevented California property taxpayers from receiving the comprehensive tax relief they should have had last year," Boney said.

Eleven Teachers Take Sabbaticals This Year

Eleven Grossmont District high school teachers, with a total of more than 100 years of service, will be missing from their classrooms next year.

The teachers will be on sabbatical leaves, working toward post-graduate degrees, participating in special projects and, in some instances, traveling abroad.

According to Assistant Superintendent, Personnel, Dr. Hazel Bole, the purpose of the sabbatical leave program is to give teachers the chance to broaden their professional knowledge to benefit classroom students.

"To be eligible for a sabbatical a teacher must have seven years of continuous, full-time service with the District. In addition, he must promise to work for the District for two years upon returning."

"Leaves are granted for a period of one year and during

People Relations Studied Here By South Cal Police

More than 100 police officials from Los Angeles, San Diego, Riverside and Imperial Counties took a good hard look at the effectiveness of their community relations image Monday at the regular meeting of the Southern California Police Community Relations Association at Ball Hall on Shelter Island.

Included in the group were college professors, district attorneys and representatives of minority groups.

Eight tables of 14 men each generally agreed that the policeman has an important role in community relations. Many were of the opinion that this was his major responsibility. Crime control, it was felt, was in relation to the rapport the officer has with the community he serves.

Jack Canaan, a San Diego public relations firm owner, was wrap-up speaker and discussed the changing role of today's peace officer and new anxieties in an open society.

The trip will include Tibbitts' being the guest of the West German government for the time, and he will stay with a family in Nuernberg.

The contest, which pitted his talents against 50 other students from the San Diego area, was sponsored by the American Association of Teachers of German. It involved competition in writing, reading and German grammar.

Tibbitts, and a number of

other regional winners in the competition will tour a number of cities in West Germany, including Munich, Stuttgart, Rothenburg, Frankfurt, and Cologne. The final week of his stay will be in West Berlin, and he will also tour East Berlin.

Steve Williamson, also a Mount Miguel scholar, won an award for his efforts in the competition for three year students.

Kuhn Raps Van On Cambodia

James B. Kuhn, Republican candidate for Congress in the 37th District, criticized his opponent, Lionel Van Deerlin, for his vote in favor of the Cooper-Church Amendment last Thursday. This bill would have denied President Nixon support for use of troops in Cambodia.

Speaking to the North Park Republican Assembly this week, Kuhn said, "The President is systematically pursuing withdrawal of American troops from Viet Nam with his Vietnamization program. Passage of this ill-conceived bill would have jeopardized the program."

Kuhn also pointed out Van Deerlin's inconsistency on the Viet Nam war.

"With his vote on Cooper-Church and his previous condemnation of our Cambodia troop movement, Van Deerlin is denying the necessary support for the very same troops he helped send into this horrible conflict in Southeast Asia under the Johnson Administration."

Thomas is seeking the post of San Diego County District Attorney, replacing his boss, Don Keller, who is retiring.

P.R. Program OK'd by Sups

SAN DIEGO (CNA) — A public information program has been approved by the County Board of Supervisors. The board acted on the program of newly-hired public information officer Jim McCain in a unanimous vote, but over the strong objection of De Graff Austin who put the price tag at \$66,000 for the remainder of this fiscal year.

Harry Scheide said that if the county fails to win approval for a bond issue in November, the cost will be far greater than the cost of the department.

Austin said he was voting for the measure because he did not want to be put in the position of opposing the aims of the program.

The program will include increased efforts in the direction of public relations by all county employees.

McCain said greater efforts must be expanded to obtain electronic media coverage of county government. He noted that the press, radio and television facilities in the county administration center are woefully inadequate.

The aim is to inform the public of county government and its services.

The proposed salary for the writer is \$9,582 and for a graphic artist is \$10,146.

\$200,000 Montessori School To Open

Nearing completion is the first of three units of the \$200,000 Montessori school.

It is being privately funded by San Diego investors on a four-acre plot at 3327 Kenora st., Spring Valley.

The first section is scheduled to open with approximately 40 students in the 2-to-7 year age group in September.

Mrs. Margaret Lashlee, a Montessori instructor, said the school population would reach 400 at the end of its three-year expansion period.

Dr. Lawrence Foster, an instructor at UCSD has been named headmaster. His wife will be director.

The Montessori method is based on the premise that all children — from birth until about six years of age — are the most learnable. It is the period of the highest acceptability of training in the five senses.

The Montessori method provides materials developed with this idea in view and students choose the materials that interests him most.

After the age of six, it is said, the need for sensorial development passes and learning becomes a matter of intellect and its use. The student now is freed to make the best use of his intellectual capabilities, according to Mrs. Lashlee. He also exhibits none of the personality aberrations that inhibit many children and prevent them from learning. The latter are children who do not enter school until they are five and a half or six years of age.

Dr. Maria Montessori, an Italian physician and educator who died in 1952, developed the famed method.

There are approximately 20,000 Montessori schools in the world. Most of them are in the United States. The nearest West Coast school is in Chula Vista.

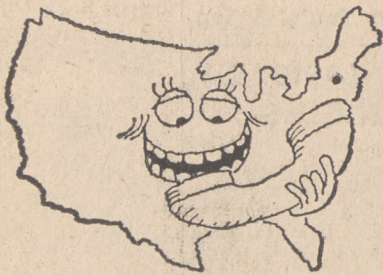

Tuition, according to Mrs. Lashlee, is about \$100 a month a child and includes one hot meal.

THE PHONE BOOTH

Old telephones never die, they just lose their numbers. Over 500 million pounds of used telephone parts are shipped each year to Western Electric Company which

manufactures equipment for the Bell System. There the parts are sorted and refined to provide raw materials for new telephones. Many types of equipment are reusable—everything from cable to telephone instruments. This makes possible savings in production costs when new telephone equipment is manufactured. It just makes good sense to get as much mileage out of equipment as possible, and this is one way Western Electric helps us do it.

Who talks the most? Women, you'd probably say. And that may be true, but as a nation, the United States has taken the lead as the most talkative country. According to the latest statistics, Americans averaged 701 telephone conversations a year per person, compared to 692.9 for Canadians, who had led since 1951.

The Question Box

Q What do I do if a salesman on the telephone won't take "no" for an answer?

A Tell him politely, but firmly, that you're not interested in what he's selling. If he persists, simply hang up. If a caller continues to bother you, let us know about it. We want your phone to be a convenience not an annoyance.
